

BEERA BHAVANI SANKAR

AI/ML Engineer | Full Stack Developer

📞 7396179921 ✉ beerarahul2@gmail.com 🔗 linkedin.com/in/bhavani-sankar-beera 🌐 github.com/RAHUL236733 🏠 leetcode.com/u/RAHULBEERA

PROFESSIONAL SUMMARY

Final-year B.Tech student (AI & ML, CGPA 8.4) with production-grade experience building AI-powered platforms. Developed JobFlow Engine — an end-to-end career automation platform using n8n and Google Gemini AI — and a deep learning skin disease classifier (EfficientNet, 93%+ accuracy). Proficient in Python, React.js, FastAPI, and Django. Published researcher applying Deep Q-Network RL to Bitcoin price prediction. Certified in Generative AI (Infosys Springboard). Seeking roles in AI/ML Engineering, Software Engineering, or Data Science.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL
AI/ML & Deep Learning: TensorFlow, Scikit-Learn, EfficientNet, OpenCV, NumPy, Pandas, Vector Embeddings, LLM Prompting, OpenAI API, Reinforcement Learning (DQN)
Web & APIs: React.js, FastAPI, Django, REST APIs, HTML5, CSS3, Tailwind CSS
GenAI & Automation: Google Gemini AI, n8n Workflow Automation, Prompt Engineering, GPT Embeddings, LLM Integration
Databases & Tools: MySQL, SQLite, Supabase, Django ORM, Git, GitHub, Vercel, Railway, VS Code
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

INTERNSHIP EXPERIENCE

Python & Django Developer Intern | Topnotch Pvt. Ltd (Remote) Jul 2025 | 1 Month

- Built a full-stack Library Management System in Django, automating book issuance, return tracking, and inventory workflows for 200+ records.
- Implemented JWT-based authentication and role-based access control (RBAC); awarded Python with Django Web Application Development Certification on completion.

PROJECTS

JobFlow Engine — AI Career Intelligence Platform | React.js, n8n, Google Gemini AI, Supabase, Railway, Vercel [🔗 ai-job-matcher-eight.vercel.app](#)

- Architected an end-to-end AI career platform using n8n workflows and Google Gemini AI to extract skills from resumes, calculate ATS scores, detect skill gaps, generate cover letters, and create personalized career roadmaps.
- Built a smart job-matching engine that scrapes live listings and ranks opportunities with AI compatibility scores, deployed on Vercel + Railway with React.js dashboard and Application Tracker.

DermaVision — AI Skin Disease Classifier | Python, EfficientNet, FastAPI, React.js, SQLite, TensorFlow

- Fine-tuned EfficientNet with transfer learning and image augmentation to classify dermatological conditions; achieved 93%+ validation accuracy on multi-class skin disease dataset.
- Integrated React.js front-end with FastAPI back-end for real-time browser-based inference; full-stack deployment with SQLite for prediction history.

Library Management System | Python, Django, MySQL

- Developed a web-based library platform for book inventory, member management, and borrowing history with role-based Django ORM models and admin dashboard.
- Automated book issuance and return workflows with a responsive UI, reducing manual effort and improving data retrieval efficiency.

Personal Portfolio | React.js, Tailwind CSS, Formspree, Vercel [🔗 personal-portfolio-tau-dusky-89.vercel.app](#)

- Designed and deployed a fully responsive portfolio with continuous delivery on Vercel; integrated Formspree for serverless contact form handling with zero-downtime updates.

RESEARCH & PUBLICATIONS

Bitcoin Price Prediction Using Advanced DQN Technologies | Research Paper 2024–2025

- Applied Deep Q-Network (DQN) reinforcement learning to model and predict Bitcoin price movements from historical OHLCV data, bridging deep RL with quantitative finance.
- Investigated DQN agent behavior in volatile financial environments; findings documented in research paper (under review).

EDUCATION

B.Tech in IT (AI & ML) — GMR Institute of Technology, Rajam, Andhra Pradesh 2023–Present | CGPA: 8.4/10
Intermediate (MPC) — Sri Chaitanya Junior College, Rajam 2021–2023 | 91.3%
Secondary School Certificate (SSC) — Government High School, Rajam 2021 | 98.6%

CERTIFICATIONS

- Principles of Generative AI — Infosys Springboard (May 2026)
- Artificial Intelligence Primer — Infosys Springboard (May 2026)
- Python with Django Web Application Development — Topnotch (2025)
- Deep Learning Essentials — L&T EduTech (2024)
- SQL Intermediate — HackerRank (2024)
- Java Skill UP — GeeksforGeeks (2024)
